

WrapEDIT | video editing table

Move to the rhythm of your work with the new WrapEDIT. Wrap your work surface around you and bring everything up close and personal. The rear surface has a two manual height adjustment settings. The Keyboard shelf manually tilts 5° negative and 15° positive

A.

A. Editors appreciate the curved design of WrapEDIT that keeps their video equipment within easy reach. The Wrap EDIT easily holds up to three monitors on Flat Panel Monitor Arms. The WrapEDIT is shown with accessories:

- Flat Panel Monitor Arms
- CPU Side Rack with Caster

B. Popular in medical applications because it “wraps” the monitors around the user.

C. Shelf is manually adjusted to a 53” height when the working environment requires it.

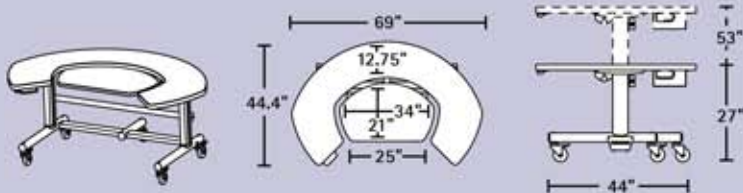

B.

C.
